To Whom It May Concern:

I have been at Tuscany Falls Golf Course for 5 years and have been using Global Organics' products since construction of this course. I use Humega the most, applying it regularly to the entire course. I have been very happy with it, seeing more growth and healthy turf. I have also been able to use half of the recommended rates of fertilizer. I use Fulvic Acid when spraying greens to help increase uptake of Iron and Nitrogen by the plants.

We also use Bio Scrubber in one of our lakes and have had great success as well.

I highly recommend Global Organics Products for turf care.

Sincerely,

A handwritten signature in cursive script that reads "Jim Anderson".
