

Announcing

The 1st Organic Herbicide.
AllDown™ is approved for use with certified organic food and fiber crops.

AllDown™ Green Chemistry Herbicide®

is a fast acting non-selective product for burn-down of unwanted top growth foliage.

Its ingredients work rapidly, providing fast desiccation and control of unwanted broadleaf weeds and grasses.

AllDown™ is safe to use around water, children and pets.

AllDown™ is manufactured by
Summerset

Humega™ is
manufactured by
Global Organics

Benefits of Humega™

- ◆ Improves water-holding capacity of the soil
- ◆ Breaks up clay/caliche soils
- ◆ Retains water-soluble inorganic fertilizers
- ◆ Increases aeration of soil
- ◆ Improves drainage
- ◆ Promotes micronutrient uptake
- ◆ Promotes soil pathogen suppression
- ◆ Reduces other fertilizer requirements
- ◆ Increases cation exchange (CEC) reactions
- ◆ Buffers salts and toxins

Humega™
is OMRI Listed

Application

Apply 30 gallons per acre. Use one quart per 1,000 per sq feet three times per year. Application recommendations are to apply with water, using the application in early Spring, Mid-Summer and late Fall.

HUMEGA™ is liquid, with no settling out. It can be side dressed, broadcast, put through sprinklers, pivots or drip systems (micro jets/tape).
